## Summary

As a passionate software engineering student, I thrive on the excitement of discovering new technologies and exploring their practical applications. With a deep desire to create innovative solutions, I am eager to collaborate with like-minded individuals and continually expand my skill set to make a meaningful impact on the world.

## Education

**Aurora University**, Aurora, IL
Expected May 2024
Bachelor of Science in Computer Science

### *Relevant Coursework*

- Object-Oriented Programming
- Intro to Programming
- Data Structures and Algorithms
- Web Development
- Computer Security
- Software Testing
- Computer Systems and Architeture

## Skills

Java, C#, JavaScript, Python, HTML, CSS, Bootstrap, Node.js, REST, Postman

## PROJECTs

**Well-Being Weather (JavaScript/HTML/CSS)**| Personal Project - February 2023

- Created a minimalist weather application that includes geolocation-based weather and a random quote.

**Virus Scan (JAVA)**| Aurora University - March 2022

- Created a program that generated SHA-256 hashes of files in a directory, which were compared to known virus hashes. If a virus was found, the file was logged and marked as a virus.

**Wordle (JavaScript/HTML/CSS)**| Personal Project - November 2022

- Recreated the popular game Wordle after learning about reactive DOM elements.

## Involvement

**Musical Theater** | CYT
2014-2019
- Performed in 22 different musicals such as Newsies, Tarzan, and Les Miserables.

**E-Sports Club** | Aurora University
2022-Current

## EXPERIENCE

**Target** | St Charles, IL September 2020 – 2023
*Tech Consultant*

**Starbucks** | Carol Stream, IL September 2018- November 2019
*Barista*

**Cafe Zupas** | St Charles, IL September 2016 – 2018
*Shift Lead*
